February 2019

PRESIDENT'S REPORT

February 2019 Presidents Message

February, already ... Wow! Where has the first month of 2019 gone! I trust everyone's year is off to a great start, and your resolutions are still holding strong, I know I have hit a few bumps but I am still trying to keep them front of mind and continuing on!

I wanted to let you know about an event we have coming up on Friday, March 1st! We are going to be hosting our first Steak Night to raise funds for our ASIST Scholarship. As many of you who may be new members or even members who have been with us for a while, you may not know what ASIST stands for or really what it is. I would like to shed a bit of light on that for you.

ASIST stand for Adult Students in Scholastic Transition, this scholarship will help provides financial support and guidance to adults in the community who are in a variety of transitional situations. To be eligible for the program, candidates must be able to identify their career

goals and objectives along with meeting the necessary educational and financial requirements.

We are looking at setting up two scholarship; one at the University of Saskatchewan and the other at Saskatchewan Polytechnic. Should you be interested or have any contact at either of these institutions please reach out to Joy Crawford, who is our ASIST Chair for this year and ask to join her committee.

This upcoming steak is going to be a great event, as it is Family friendly. A place we can all get together and meet each other's families and connect on another level. Also if you have planned these type of events before, and are interested in joining the committee or would like to donate a door prize and or silent auction item please reach out to Susan Mowat, our Ways & Means Director, I know she would love the help! As always should you every have any questions or want to find out more about how EWI of Saskatoon can better work for you, please feel free to reach out to myself or one of our Board Members and we would be happy to answer your questions, or even meet for coffee! Wishing you all a prosperous month full of Success, Love, Adventure and Laughter!

Sincerely

A handwritten signature in blue ink that reads "Sandra Miller".

DOOR PRIZES AND SILENT AUCTION ITEMS NEEDED

Firm Members and Individual members,

As you all know a large part of our organization is our ASIST program, fund raising is our way to be able to stand behind the scholarships we offer. We are looking for Silent auction items for our steak night and door prizes for our monthly meetings.

Please help make our steak night and monthly meetings be a greater success.

Please contact me for pick up at: mowatsusan@gmail.com or 306 280-1073.

If you require a letter for your firm, please let me know and I can provide you with one.

Thank you in advance for your generosity.

THE NEXT PROFESSIONAL DEVELOPMENT WEBINAR IS FEBRUARY 5TH

Human Factors in Workplace Design

Presenter: Melissa Steach,
Human Factors & Ergonomics Specialist
Herman Miller, Inc.

 Herman Miller

ewi PROFESSIONAL DEVELOPMENT
WEBINARS

When we feel better, we work better. That's one of many reasons it's critical to consider human factors in workplace and home office design. A workspace that takes the whole human into consideration - that encourages movements large and small throughout the day, that allows us to initiate and regulate social interaction, and that takes into consideration factors like personal space, physical and psychological proximity, and territoriality –helps us feel better. It improves our health, comfort, and connection. By providing an overview of physical, social, and cognitive ergonomics, this presentation will help participants design, or arrange, workspaces that are healthier for their employees, coworkers, and themselves.

Melissa Steach is a fellowship-winning artist, best-selling author and Doctoral Candidate in I-O Psychology with certifications in positive psychology interventions and ergonomics. She's also a human factors and ergonomics specialist at Herman Miller, Inc.

A visionary who combines art with research, Melissa explores personal / organizational culture and behaviors to understand how our environment can better engage, empower, even shape how we engage ourselves and each other. Above any education, Melissa considers her experience growing up in housing projects in the South and subsequent search for self through trying on many different careers, to be her most valuable credential.
